PROFESSIONAL SUMMARY

Computer Science graduate with a strong analytical mindset and a passion for research, strategy, and data-driven decision-making. Experienced in building web applications and analyzing user-focused solutions while developing strong problem-solving and organizational skills. Passionate about startups, growth, and understanding customer behavior through research and competitive analysis. Eager to work closely with founders, contribute to go-to-market (GTM) initiatives, and learn how high-growth startups scale through experimentation and data.

EDUCATION

Kalinga Institute of Industrial Technology (KIIT), Bhubaneswar
Bachelor of Technology (B.Tech), Computer Science & Engineering 2021 – 2025
CGPA: **7.23 / 10**

PROJECTS

CourseFlex – Smart Learning Platform

React.js • Node.js • Express.js • MongoDB

- Designed and developed a modern learning platform to organize courses and track learner progress.
- Built features including progress tracking, bookmarks, notes, keyboard shortcuts, and personalized learning workflows.
- Continuously improved user experience by adding productivity-focused features based on user needs.
- Managed project planning, feature prioritization, and iterative improvements.

Test Analytics Dashboard

React.js • JavaScript

- Developed a dashboard to visualize student performance across subjects, topics, and chapters.
- Created analytics for accuracy, progress tracking, and performance trends.
- Presented large datasets in a clear and actionable format to support better decision-making.

EdTech Market Research & Competitive Analysis

Research • Google Sheets • Documentation

- Conducted comparative research on leading EdTech platforms, learning products, and student engagement strategies.
- Evaluated pricing models, product positioning, marketing approaches, and user experience.
- Organized findings into structured reports with recommendations and key insights.

ACHIEVEMENTS

- Built multiple full-stack web applications focused on improving productivity and learning experiences.
- Independently researched startup products, user behavior, and growth strategies to strengthen product understanding.
- Maintained active GitHub repositories showcasing personal development projects and continuous learning.
- Passionate about startup ecosystems, product growth, and technology-driven education.

CERTIFICATIONS

- Data Structures & Algorithms
- MERN Stack Web Development
- Git & GitHub

INTERESTS

- Startup Growth
- Product Strategy
- Marketing Analytics
- Competitive Intelligence
- AI & Automation
- EdTech
- Technology Innovation

SKILLS

GROWTH & BUSINESS

- Market Research
- Competitive Analysis
- GTM (Go-to-Market) Research
- Product Thinking
- Customer Research
- Data Interpretation
- A/B Testing Fundamentals
- Documentation
- Microsoft Excel
- Google Sheets

TECHNICAL SKILLS

- Java
- JavaScript
- Python
- SQL
- React.js
- Node.js
- Express.js
- MongoDB
- HTML5
- CSS3
- Tailwind CSS
- Git
- GitHub

PROFESSIONAL SKILLS

- Analytical Thinking
- Problem Solving
- Research & Information Gathering
- Time Management
- Organization
- Communication
- Adaptability
- Fast Learner
- Attention to Detail
